Jl. Pulau Menjangan, Gang Diponegoro II/No.4

I possess a strong drive and enthusiasm, fueled by a genuine passion for learning and exploring technology, particularly in the realm of frontend and UI/UX. I am deeply committed to tackling challenges and finding innovative solutions. My expertise lies in Python, and I leverage this powerful programming language. Additionally, I consistently apply my knowledge of system design principles to carefully strategize and architect efficient and effective systems.

Field Work Practice

Time Gap - Indonesia

Jun 2023 - Present

Frontend, UI and UX

TimeGap is an instant booking platform that connects individuals and professionals to a plethora of activities. It works just like Uber or Grab. The user requests a service via the app and receive confirmation instantly. The app provides a reliable, immediate and safe-listing with professional providers around the world, there is no border.

- Frontend
- Campaign Organizations
- UI and UX
- Media Social Management

Education Level

Universitas Udayana - Indonesia

Sep 2021 - Jul 2025 (Expected)

Undergraduate in Computer Science, 3.75/4.00

Volunteer Experience

SUPREMASI XVI - Indonesia

Mar 2023 - Apr 2023

Competition Division Member

SUPREMASI, an acronym for Informatics Student Appreciation Voice, represents an event with the objective of nurturing the talents and interests of informatics individuals. It aims to foster creativity and enable them to thrive in society, ultimately working towards a future filled with opportunities and success.

- Responsible for managing the game
- In charge of making the rules for the game
